

### Electronic Assembler

Founded in 1987, Metrol are global leaders in the innovation, development and operation of wireless down-hole systems. Our main office is located in Kirkhill Industrial Estate in Dyce, but operations are global, and we have offices in Dubai, the United States and other worldwide locations.

We deliver excellence in innovation and performance by caring about our relationships – both with our team and our clients. With a family business culture, we aim to create and provide a working environment that promotes from within, encourages training and development and allows and trusts individuals to maintain a work-life balance.

### Benefits Include

- Culture that promotes teamwork and empowering individuals to make a difference
- Challenging role with on-the job training and career progression opportunities
- Further Education opportunities
- 33 days holiday with long service awards
- Company Pension contributions
- Private Healthcare and Life Insurance
- Cycle to Work Scheme

We are looking for an enthusiastic and capable individual to join our busy electronics workshop at our HQ in Dyce. They will be involved in the development, assembly, test and servicing of electronic products and ancillary equipment.

### Principal Duties Include

- Manufacture, service, test and calibrate Metrol products and assemblies.
- Assemble and test R&D tools and assemblies.
- Maintain accurate build and maintenance records.
- Maintain the electronic workshop, stocking of consumables and promote good housekeeping.
- Encourage and actively participate in continual process improvement.
- Attend training courses as requested by the company.
- Maintain a high standard of personal safety in the workplace observing all company health and safety requirements.

### Required Skills & Experience

- Ideally qualified to NC level or equivalent in electronics.
- Previous experience assembling electronic tools.
- Able to interpret basic electronic schematics and assembly drawings.
- Experience of soldering electronic components on to Printed Circuit Boards and cable assemblies.
- Able to identify electronic components

### Location

Howe Moss Pace, Kirkhill Industrial Estate, Dyce, Aberdeen.

### Working Hours

Working hours will be Monday to Friday, 9.00am-5.00pm. Due to its nature, this will be a site-based role.

To apply, please email a CV and Cover Letter to Metrol's HR Department – [vacancies-technical@metrol.co.uk](mailto:vacancies-technical@metrol.co.uk)
