

Electronic Technician

Founded in 1987, Metrol are global leaders in the innovation, development and operation of wireless down-hole systems. Our main office is located in Kirkhill Industrial Estate in Dyce, but operations are global, and we have offices in Dubai, the United States and other worldwide locations.

We deliver excellence in innovation and performance by caring about our relationships – both with our team and our clients. With a family business culture, we aim to create and provide a working environment that promotes from within, encourages training and development and allows and trusts individuals to maintain a work-life balance.

Benefits Include

- Culture that promotes teamwork and empowering individuals to make a difference
- Challenging role with on-the job training and career progression opportunities
- Further Education opportunities
- 33 days holiday with long service awards
- Company Pension contributions
- Private Healthcare and Life Insurance
- Cycle to Work Scheme

We are looking to add to our electronics team. The electronics technicians will be involved in the assembly, test, and repair of a broad range of electronics required for the development of downhole electronic tools.

Principal Duties Include

- Manufacture, service, test and calibrate Metrol products and assemblies.
- Assemble and test R&D tools and assemblies.
- Maintain accurate build and maintenance records.
- Maintain the electronic workshop, stocking of consumables and promote good housekeeping.
- Encourage and actively participate in continual process improvement.
- Attend training courses as requested by the company.
- Maintain a high standard of personal safety in the workplace observing all company health and safety requirements.

Required Skills & Experience

- Electronic knowledge down to component level.
- Able to understand electronic schematics for PCBs.
- Experience of repairing or assembling PCBs.
- Able to debug circuits at resistor, capacitor, transistor and IC level.
- Good verbal and written communication skills.
- Proficiency with standard computer applications.
- Qualified to HNC level, or above.
- Repair and test of analogue and digital electronics.
- Experience with high temperature electronics.
- Experience in the oil and gas sector.
- Basic software/programming skills.

Location

Howe Moss Pace, Kirkhill Industrial Estate, Dyce, Aberdeen.

Working Hours

Working hours will be Monday to Friday, 9.00am-5.00pm. Due to its nature, this will be a site-based role.

To apply, please email a CV and Cover Letter to Metrol's HR Department – vacancies-technical@metrol.co.uk
