

Mechanical Fitter

Founded in 1987, Metrol are global leaders in the innovation, development and operation of wireless downhole systems. Our main office is located in the Kirkhill Industrial Estate in Dyce, but operations are global, and we have offices in Dubai, the United States and other worldwide locations.

We deliver excellence in innovation and performance by caring about our relationships – both with our team and our clients. With a family business culture, we aim to create and provide a working environment that promotes from within, encourages training and development and allows and trusts individuals to maintain a work-life balance.

We are looking for a Mechanical Fitter to join our team of Engineers and Fitters, dealing with all mechanical aspects of Metrol's equipment and systems.

Benefits

The role comes with an excellent salary and the following benefits:

- Culture that promotes teamwork and empowering individuals to make a difference
- Challenging role with on-the job training. Working as part of an expert team
- Further Education opportunities
- Optional overtime available
- Additional Holidays
- Company Pension contributions
- Private Healthcare and Life Insurance

Principal Duties

The Mechanical Fitter will be required to:

- Undertake build, repair, and maintenance of downhole mechanical assemblies.
- Perform test build of new equipment; perform prototype testing.
- Be competent to work on mechanical equipment and systems in the downhole sector of the oil industry.
- Read drawings, interpret work instructions and perform the work to time and quality.
- Be able to carry out surveys and pre-fit examinations of equipment.
- Advise on ordering of equipment for new tools and development work.
- Carry out function and pressure testing. Carry out gas testing.
- Participate in design reviews.
- Support internal customers on technical queries.
- Maintain build files & related documentation.
- Support operations by working at client sites (onshore and offshore).
- Be competent to use general workshop machinery and hand tools related to the role of a mechanical fitter.

Required Knowledge & Experience

The Mechanical Fitter will be require the following knowledge & experience:

- Time served apprenticeship or equivalent.
- Five years experience as a Mechanical Fitter or Tool Dresser.
- Oilfield downhole tools.
- Ideally has hydrostatic and gas testing experience.

Location

Kirkhill Industrial Estate, Dyce, Aberdeen.
